

Building Level Planning Team

Minutes

March 30, 2006

Members present: Saxena, McLoughlin, Gideon, Murphy, Sutherland, Davenport

1. We reviewed the implementation of the SOM program. For the time being, we will recommend that business will be incorporated with the social studies program.
2. We decided to begin implementation of a school citizenship award in the next school year in order to focus attention on the SOM program.
We will investigate handing out “coupons” for items in the village. Perhaps a PTSO grant would enable local merchants to offer these items (ice cream, pizza) to students wholesale. We will discuss further.
3. We decided to change the high school handbook language to reflect the District Code of Conduct language regarding dress code.
4. We decided that three day advance notice would be necessary for all visitors.
5. We will recommend a policy change to the District Code of Conduct Review committee to permit cell phone usage in the cafeteria.
6. We adjourned at 5:30.
