

An Anthem Company

Home Delivery Complete

Medication delivered directly to you. Save money and time.

What is Home Delivery Complete?

With Home Delivery Complete, you don't have to make trips to the drugstore to get your maintenance medicines. They're sent directly to your home — saving you time and money. You get free standard shipping and refill reminders. And you can even set up automatic refills.

You can get up to two fills - the first, plus one refill - of your maintenance drugs at your regular pharmacy before you must start using home delivery for the drugs to be covered.

Home Delivery Complete is already part of your health plan — it costs you nothing more to use for your maintenance medicines. These are the drugs that treat long-term, chronic health conditions such as:

- Indigestion
- High blood pressure
- High cholesterol
- Diabetes

Missing even one dose of these types of drugs can mean serious health problems and may lead to higher health care costs. That's why home delivery is a great way to make sure you have your refills when you need them.

It's easy to start using the home delivery pharmacy!

Make sure you have your medicine when you need it. Here are three ways to sign up:

- Go to empireblue.com. Choose **Manage Your Prescriptions** on the home page and log in, then choose **Switch to Home Delivery**.
- Download the Empire and Express Scripts* mobile apps. Log in to the Empire app, select **My Coverage** on the menu, then **Prescriptions**, which takes you to the Express Scripts app. On the Express Scripts app, choose **Transfer to Home Delivery**.
- Call us 24/7 at 1-888-613-6091 and we'll help you make the switch. If you have hearing or speech difficulties, call 1-800-221-6915 (TTY/TDD)

Here's what you get with Home Delivery Complete

Switching from a retail pharmacy to the home delivery pharmacy is easy and won't cost you anything. It can save you time and money — and help keep you healthy. With the home delivery pharmacy, you get:

- **Lower costs.** Depending on your plan, you may be able to save on drug copays. The cost of a 90-day supply of many drugs is lower than the cost of three 30-day refills.
- **Convenience.** Save yourself trips to the drugstore — and skip the lines. With home delivery, your medicine arrives at your door with free standard shipping. First-time orders arrive within two weeks from the time the pharmacy gets the order. After that, refills take just 3 to 5 days.
- **Automatic refills.** No need to worry about refilling on time. If you sign up for automatic refills, your medicine can be sent to you automatically before your next refill date. Get started on empireblue.com. On the home page, choose **Manage Your Prescriptions**, then log in. On the pharmacy page, choose **Additional Pharmacy Services**. On the Express Scripts site, select **Manage Automatic Refills** from the *Manage Prescriptions* menu.
- **Help following your doctor's orders.** When you get your medicine sent to your home, you're less likely to miss a dose and more likely to take it the way your doctor prescribed.¹ This can mean fewer visits to the doctor or hospital — and a healthier you.
- **Safety.** You can be sure you're getting the right medicine with the home delivery pharmacy. It has a higher accuracy rate compared to retail pharmacies.²
- **Ease of payment.** You can pay by check, eCheck, money order, flexible spending or health savings account (FSA/HSA) card, major credit card or debit card.³ You also can use an extended payment plan to spread it out over three payments.

How does Home Delivery Complete work?

When you fill a maintenance medicine at a retail pharmacy:

1. Each time you fill a maintenance medicine at a retail pharmacy, we'll contact you by phone and mail to tell you about Home Delivery Complete and its benefits. We'll tell you how much you can save using home delivery. And we can work with you over the phone to transfer your prescription.
2. If you don't want to wait to be contacted, call 1-888-613-6091 to get started.
3. Remember, when you use your local pharmacy, you'll be able to get one original fill and up to one refill at your regular copay/coinsurance amount. After that, you'll have to pay the full retail cost of your drug for refills until you switch to home delivery. This can be a lot more than your copay/coinsurance cost.

Questions? We're here to help

You can find lots of information about your pharmacy benefits online. Just go to empireblue.com, choose **Manage Your Prescriptions** and log in. That will take you to your personal pharmacy page.

If you still have questions, you can always call the Member Services number on your member ID card.

1. Iyengar RI, Henderson RR, Visaria J, Frazee SG. Dispensing Channel and Medication Adherence: Evidence Across Three Therapy Classes. *American Journal of Managed Care* (October 2013). Patients taking high blood cholesterol medications were 19% more adherent when receiving them through home delivery pharmacies.

2. Express Scripts Internal data, 2010-2014.

3. If you're signed up for a copay assistance program or use manufacturer coupons to help pay for your prescriptions, you'll need to submit detailed claim information and your receipt to the assistance or coupon programs to get paid back. Express Scripts cannot bill Anthem and third parties for prescriptions you fill through home delivery.

Services provided by Empire HealthChoice HMO, Inc. and/or Empire HealthChoice Assurance, Inc., licensees of the Blue Cross and Blue Shield Association, an association of independent Blue Cross and Blue Shield plans.

Important Update Regarding the Prescription Drug Benefit

April 2018

Dear Retirees,

I'm writing to inform you of an **important update** from the DEHIC Board of Trustees that will positively impact the prescription drug benefit of the Alternate PPO and EPO Select 20 **beginning July 1, 2018**. This important update is estimated to save the health plan \$2.2M over the next plan year.

During the Board of Trustee's meeting held on January 24, 2018, a motion was made to approve the introduction of **Mandatory Mail Order Coverage** for prescription drug **maintenance medications**.

By definition, **maintenance medications** are those drugs used to treat chronic, long-term conditions taken on a regular, recurring basis. Examples of chronic conditions requiring this type of treatment include diabetes, high blood pressure, high cholesterol, etc. DEHIC members *currently* have an opportunity to obtain their maintenance medication through the mail order process under **Express Scripts, Inc. (ESI)**. The process is *currently voluntary*, and members are able to obtain a 90-day supply for two copayments.

Beginning on July 1, 2018, members will be ***required*** to obtain their maintenance medication through ESI, which will save them time and money (two copayments for 90-day supply remains in place). No longer will they need to make a trip to the pharmacy, as the medication will be delivered directly to their home address. If members will be away from home for extended periods (e.g., 3 months or more), the medication can easily be re-directed upon request.

We have enclosed materials for your review that summarize the process for you as the member. We've also included a current list of maintenance medications.

Important Items of Note:

- Empire's customer service unit has been updated on DEHIC's recent decision, and their team of service representatives is ready to assist members with questions about the mail order process, if the member has not already signed up for the mail order service.
- The enclosed maintenance drug list is subject to change by ESI, so it is important for members to periodically check with Empire customer service on such updates.
- To ease in the transition beginning July 1, 2018, members will be allowed to obtain two prescription fills at their pharmacy if they have forgotten to enroll in the mail order service. **After that, they must use the mail order service, or will have to pay the full cost of the prescription out of pocket.**
- Should members forget to use the mail order service beginning July 1st, a letter will be sent to the member from ESI within 2 weeks after each fill at the pharmacy. The letter will remind them to use mail order, as well as the ways in which they can sign up. A phone number will be included for additional member support.
- Chris Grimshaw, Empire BCBS Account Manager, will be available at the upcoming open enrollment meeting.

Thank you for your attention to this update,

Maintenance Drug List

Depending on the health plan you have with us, you may need to fill maintenance drugs through home delivery.¹ Maintenance drugs are medicines used for long-term health conditions like asthma, heartburn, high blood pressure, allergies and high cholesterol.

Find out what's covered by your plan at empireblue.com.

When you're on our site, choose **Manage your prescriptions** and then log in with your user name and password. After you log in, you'll be taken to the Pharmacy Overview page, where you can:

- Choose **Price a Medication**, which will take you to another site for the company that manages our pharmacy benefits. There, you can find out if a drug is covered by your plan and how much you'll pay for it at a retail pharmacy and through home delivery.

Want to get started with home delivery?

To sign up, fill out the home delivery order form. Be sure your doctor includes your prescription for a 90-day supply of your medicine and your copay information, and mails it to the address on the form. You can also switch prescriptions you now get filled at your pharmacy to home delivery online. On the Pharmacy Overview page, just choose **Switch to Home Delivery** to see your prescriptions and get started.

If you want to use our Home Delivery Pharmacy and are enrolled in a program that helps you with your copay, or if you use manufacturer coupons to help pay for prescriptions, you'll need to give the program or manufacturer detailed claim information and a receipt to get paid back. The company that manages our prescription benefits can't bill us or these third parties for prescriptions you fill through home delivery.

To find out the maintenance drugs you can fill through our Home Delivery Pharmacy, check out this list:²

Disclaimer/note/source:

1 Home Delivery owned and operated by our pharmacy benefits manager, Express Scripts. 2 Being included on this drug list is not a guarantee of coverage.

Generic drugs are lower case and trade/brand name drugs are capitalized.

This list does not include all maintenance drugs.

Some medications, like Insulin Needles, are listed as a category and not with a specific brand or generic name.

Over-the-counter drugs are not included on this list.

This list may change without notice, which may affect your benefit coverage.

For more information about your drug plan or to sign up for home delivery, you can go to empireblue.com or call Member Services at the phone number on your member ID card.

Members who are speech- or hearing-impaired should call 1-800-221-6915 (TDD/TTY), Monday to Friday, 8:30 a.m. to 5 p.m., Eastern time.

Services provided by Empire HealthChoice HMO, Inc. and/or Empire HealthChoice Assurance, Inc., licensees of the Blue Cross and Blue Shield Association, an association of independent Blue Cross and Blue Shield plans.

Express Scripts, Inc. is a separate company that manages the pharmacy benefit services for members of our health plans.
