Personnel Committee Minutes

June 4th, 2020

Present Via Zoom: Joe Phelan, Steve Jenkins, Tom Burnell, Diane Lyons

Via phone: Jackie Raccuia

The committee discussed the following topics which will be discussed in executive session:

- * Contract of a staff member.
- * Contract request for an ANNIE member.
- * Food service workers contract
- * RTA contract

The committee discussed the status of the cafeteria program regarding our cafeteria workers pay for the remainder of the school year which was changed from the original school calendar. When school shut down in March we were providing 45 meals per week as of today we are providing 900 meals per week. The local food pantries are very concerned with their ability to provide enough food over the summer if the school does not continue to provide meals after June 30th. There needs to be some clarity about the summer meal program because under current rules grab and go meals would not be allowed. Students would need to come into the buildings to receive a meal, since that does not make a lot of sense for us we would like to continue as we have with the grab and go option. It is also not clear if the school would be reimbursed for the meal. The way it currently works is the cost of the meal is reimbursed but the district pays the labor cost. If the district had to cover the full cost for the summer it is estimated to cost approximately \$21,000. It is the districts hope to continue this service. Tom has started to look at the contingency budget requirements if the budget was to be defeated and a re-vote does not happen. We briefly discussed potential personnel cuts but Tom is still working on numbers.

Respectfully submitted by Diane Lyons
