

**Strategic Planning Committee Minutes**

September 10, 2020, 5:15pm

Attending: Tom Burnell, Albert Cousins, Mark Fleischhauer, Diane Lyons, Jaclyn Savolainen

The committee discussed what our goals should be regarding visioning and planning for the district.

1. The committee believes in the value of the CDEP (Comprehensive District Education Plan) and aims to reinvigorate that work as a motivator to align our vision with planning and budgeting processes. The CDEP, as an evolving document, should be our road map. Empowering teachers and working with committee members and building leaders will be part of that goal.
2. Additionally, the district anticipates state aid cuts this fiscal year (possibly 20% or more), so we need to look at what impact that will have for us.
3. The committee will also be thinking ahead to transitioning out of this unusual year. How can we learn from what we are doing this year in order to innovate moving forward?
4. Lastly, we will be analyzing demographic shifts in the district.

Respectfully submitted by Jaclyn Savolainen
