

Building Level Planning Team

Draft Minutes

November 16, 2006

Members present: Saxena, Saxena, Shibata, Sloane, Sutherland, Christie, Fox, Gideon, Davenport

1. We reviewed a preliminary audit of the master schedule, which revealed that there are 40 electives. We asked what are “true” electives, in other words, classes which don’t have pre-requisites. This number will be provided at our next meeting. Other questions: can we ask for more staffing; can we redeploy current electives; what opportunities are provided through local colleges? We will investigate those questions.
2. We discussed the proposal to have students “sound off” or provide “verbal letters to the editor” over the pa system. Davenport will consult with the faculty.
3. We discussed ways of increasing the visibility and role of the student organization in the school. Davenport will meet with the class officers and the advisor to begin this process.
4. We discussed a student climate survey; we will continue this discussion at our next meeting.
