

4.1.4

Long Range Planning Committee Meeting Minutes
August 29, 2018

Attendees: Joe Phelan, Tom Burnell, Laura Schulkind, Steve Jenkins
Absent: Diane Lyons

Citizen's Advisory Committee Meeting

We reviewed the documents to go out onto the Microsoft Teams repository that Steve Jensen set up. Data to be organized by category so it's easier to sort through. Comments and conversations are available on the Microsoft platform. One caveat to keep in mind and relay to the CAC group is that with the Forecast5 data some of the reports are data entered by individuals and not cross checked so there are some abnormalities.

Speaking with Haldane.

Tom shared his conversation with Haldane's principal. Their approach was to develop a 10-year long range plan on education in the tax cap world. How can they enhance programs that students have an interest and stay within the cap? Their focus was on looking at the curriculum based on what a student would "look like" in 2020. CDEP, for Rhinebeck, incorporates a lot of this thinking already.

Some next steps include:

Meeting with HS Principal from Haldane.

Putting the Budget101 from Rye on Rhinebeck website

Next Meeting September 12, 2018

Respectfully submitted by Steve Jenkins
